DISTRICT EXPORT PLAN

Districts
as Export Hubs

75
आज़ादी का
अमृत महोत्सव

Acknowledgement

This is the first mammoth exercise of its kind which sought the involvement of all export related trade bodies, departments of state and central governments.

I extend my sincere thanks to the MP Industrial Development Corporation for their extensive support in convening the meetings of District Export Promotion Committee (DEPC). I would also like to thank all members of DEPC committee who participated enthusiastically in the meetings and provided critical inputs for the report. I extend my sincere thanks to Department of Industries and Commerce and its officers and MSME department of Govt of Madhya Pradesh played pivot role of coordination among all stakeholders.

I would like to thank Chambers of Commerce and Export Promotion Councils (EPCs). The in-depth knowledge of resourceful office bearers of EPCs on exports and their hold on exporters community made us easy access to true picture of exports of the region. I thank Federation of Indian Export Organizations (FIEO), Engineering Export Promotional Council (EEPC), Agricultural and Processed Food Products Export Promotion Council (APEDA) and Pharmaceutical Export Promotional Council (PHARMEXIL), Confederation of Indian Industries (CII), The Federation of Indian Chambers of Commerce & Industry (FICCI), Engineering Export Promotional Council (EEPC) and Pharmaceutical Export Promotional Council (PHARMEXIL).

I extend my special thanks to Shri Sanjay Shukla (IAS, Principal Secretary, Industries & Commerce) Government of Madhya Pradesh, Shri John Kingsly (IAS, Managing Director, MP Industrial Development Corporation - MPIDC) and Shri Suvidh Shah, (ITS, Executive Director, MP Industrial Development Corporation – MPIDC). They mobilized their subordinates and colleagues to support the project with whole heart. Their constant follow ups made us motivated to complete the work in time. Their knowledge, experience and hold of industries are extensive and their views are progressive towards industries.

Acknowledgements of this report can only be completed by extending special thanks to Shri Shivam Tripathi (Manager-MPIDC), Shri Kumar Vibhanshu, Ms Sadhana Choudhary, Ms Priyanka Saxena and Shri Shubham Gupta (Export Cell MPIDC) These professionals who have done a wonderful job in export data mining and exploring, primary and secondary data analysis, report writing, designing, and formatting of this report

Sonia Meena (IAS)
Collector & District Magistrate

“Each district of our country has a potential equal to that of one country, each of our districts has the capacity equal to a small country in the world. why should each district not think of becoming an export hub? Each of our districts has a diverse identity and potential for global market”

Hon'ble Prime Minister

on Independence Day Speech 15.08.2019

1. Background

1.1. About MP Industrial Development Corporation (MPIDC)

Madhya Pradesh is one of the fastest growing States of India. Since its formation in 1956, Madhya Pradesh has grown from being an agriculture and mining-based economy to an industry/ services-based economy. The state has a well-built infrastructure that has attracted investments in various sectors. The emergence of industrial goods among the top export items is an indication of rise in the industrial sector of Madhya Pradesh.

MP Industrial Development Corporation (MPIDC) is Madhya Pradesh Government's trade promotion and investment attraction Nodal Agency. In order to implement the vision of the Prime Minister of India, a State Level Export Promotion Committee (SLEPC) headed by the Chief Secretary has been constituted and Export Commissioner of Madhya Pradesh has been appointed as the convener of SLEPC to draw appropriate export action plan for the State.

Thus, Export Facilitation Cell has been constituted in MPIDC by deploying trade advisors and analysts to assist department in conceptualization, implementation and monitoring of export promotion program in the state. To take this initiative forward MP Trade Portal and Export Helpline has been launched by Hon'ble Chief Minister of the state.

The Cell envisages the following activities:

- Export Facilitation cell will conduct virtual outreach programmes with all the districts of Madhya Pradesh and will provide necessary support to the stakeholders.
- Plan export boot camps in the select districts to create awareness and to assist district authorities to achieve their export related objectives
- To develop and manage Trade Intelligence Platform - MPTradePortal.org for providing guidance and support to new and existing exporters in context of information about export opportunities, procedure for setting up an industry & approvals required.
- Interaction with global and domestic stakeholders, international trade agencies and international communities to prepare roadmap for export promotion

1.2. Brief description of District as Export Hub

The objective is to enable MSMEs, farmers and small industries to get benefit of export opportunities in the overseas markets and shift focus on District led Export Growth for self-sufficiency and self-reliance. It should attract investment in the district to boost manufacturing and exports and provide ecosystem for Innovation/ use of Technology at District level to make the exporters competitive. It should also help reduce transaction cost

for the exporter at various stages of export cycle and generate employment in the district. The focus on the districts should also provide platforms for wider and global reach of products and services from the district through E-commerce and Digital marketing.

1.3. Rational for District Export Plan

District Export Plan is a comprehensive plan for the district, which aims to realize the vision of creating export centric economic development through limited but sustainable & interventions, targets specifically at the district level.

The creation of institutional framework in the form of SEPC and DEPC will further consolidate the efforts for export promotion and trade facilitation through single window to provide accessible information and support to exporters. The implementation of District Export Action Plans will lead to improvement in trade logistics and infrastructure, information dissemination among local business to scale up and start exporting. The quantifiable targets identified in the DEAPs will guide the various government agencies both at the Central and the State/UT to work collectively at resolving issues faced by exporters of the district.

The District Export Action Plan will include clear identification of products (goods and services) with export potential in the district. The plan may include institutional/other responsibilities, specifics of policy, regulatory and operational reform and infrastructure/utilities/logistics interventions required across the entire chain from producer/farm to the export destination also to cover aspects like production, productivity/competitiveness, improvements required in design, tie up of producers with exporters, aggregation, sorting, testing, certification, packaging, transportation through cold chain or otherwise, import export formalities, fulfilment of destination countries standards etc. It will also include identifying bottlenecks/Issues in GI production, registration, marketing and its exports.

The plan may also include the support required by the local industry in boosting their manufacturing and exports with impetus on supporting the industry from the production stage to the exporting stage informative material on various incentives provided by the Government of India and the respective State Government may disseminate to the industry and other potential exporters.

District Export Promotion Committee

2. Constitution of District Export Promotion Committee (DEPC)

2.1. Role of DEPC

District Export Promotion Committees (DEPCs) to be constituted in each District. DEPCs may be headed by DM/Collector/DC/District Development Officer of the District and co-chaired by designated DGFT Regional Authority. All key officers related to agriculture, horticulture, livestock, fisheries, handicrafts, handlooms and industry in the district and the Lead Bank Manager along with key Export Promotion Councils, Quality and Technical Standards Bodies, Government of India departments like MSME, Heavy Industry, Revenue and Textiles will be part of the DEPC.

DEPC will focus on the specific actions required to support local exporters / manufacturers in producing exportable products in adequate quantity with the requisite quality reaching potential buyers outside India. The primary function of the DEPC is to prepare and act on District Specific Export Action Plans in collaboration with all the relevant stakeholders.

2.2. Methodology for selecting products for exports

Meetings of DLEPC

DLEPC meeting is being regularly held in the district under chairmanship of Deputy Commissioner (District Collector), Co-chair with DGFT Officers, General Manager of DIC as convener with other members.

Representatives of Industrial Associations in the districts, Export Promotion Council is Federation of Indian Exports (FIEO), Engineering Export Promotion Council (EEPC), major industrial groups, leaders of industrial clusters, officials related to banks and industrial departments were presented in the meeting.

Long discussion was held on topic of Central and State government policies, problems in the state and districts related to industries and exports.

After deliberations, the committee identified various sector/products as focus products for exports from the district which is discussed in the next section.

Export Data of the State and District

Directorate General of Commercial Intelligence and Statistics is the repository of trade data of India. We have analysed last 10 years' data of exports from the state. We have compared the export potential with district infrastructure.

Export Data of India and the World

Directorate General of Commercial Intelligence and Statistics is the repository of trade data of India. WTO through Trade map is repository of data of world trade. We have analysed both in terms of growth of export products.

Experience of Departments and Officers

DGFT from Central Government and District Industries Centre from State Government are the bodies working at the ground level for industries and exports. Officers of the departments have wide experience of the market, products along with their strengths and weaknesses.

Swot Analysis of the Product

DGFT has done SWOT (Strength, Weakness, Opportunities and Threats) analysis of every product produced in the region with comparative studies. By calculating, analysing, taking inputs from all stake holders. DLEPC sorted out products for exports from the districts. Detailed analysis of the products has been described in next chapters.

4. About the District

4.1. General Characteristic of the District

Anuppur is a district in the Eastern part of M.P. Anuppur is 285km from the nearest big city of

Jabalpur on NH43 and NH30. Anuppur consists of a series of mountain ranges and rivers. Son, Johila, Narmada, Tipan, Bakan, Chandas and Kewai are important rivers in the district, Maikal mountain range is extended from southern part of the district to the eastern part. Minerals like Coal, Bauxite and Fire Stone are significant, of which Coal is found in abundance and production soars as high as 68 lacs MT.

District's economy relies on the forest resources of the district such as timber, as the forests are available in abundance. The district is backward in terms of agriculture as the tribal population still relies on traditional methods. In Anuppur, Coal mining industries employ most of the industrial workers. Power plants are also coming up, which are providing a source for employment. The Mining & Quarrying industry is the highest contributor to the GDDP.

Anuppur is very backward in the field of agriculture. The size of the fields is very small and the tribals are mainly marginal farmers. The yearly yield of the products from the fields is not enough for their home use. Paddy, Kodo, Kutki and Maize are the crops of the district. Til, Mustard and Groundnut are the main oil seeds produced here. The production of Sunflowers and Soybean has also been commenced. In the central and southern part of the district, paddy is the main crop grown during Kharif season and in the north-west, wheat is the main crop grown during Rabi season.

The power plants in Anuppur are Amarkantak Thermal Power Plant and Chachai Power House has total generating capacity of 290 MW. 94 percent villages of Anuppur District have been electrified.

Accessibility to Exporters:

By Air: The nearest airport is Dumna Jabalpur (Jabalpur Airport) in the city of Jabalpur, Madhya Pradesh (240 km) which has daily flight service to Delhi and Mumbai. One can easily get taxi from Jabalpur to Amarkantak.

By Rail: The nearest railway stations are Pendra Road (Chhattisgarh) and Anuppur 43 km and 75 km. One can easily get taxi from Pendra Road (Chhattisgarh) and Anuppur.

By Road: Amarkantak is very well connected by roads.

4.1.1. District Domestic Product:

4.5. SWOT Analysis of the district

Strengths

Anuppur district has industrial base of agro-proceesing and mineral based industrial units. The power plants in Anuppur are Amarkantak Thermal Power Plant and Chachai Power House has total generating capacity of 290 MW. Moser Baer Power and Infrastructure Limited is developing a 2520 MW coal based Thermal Power project in the district Anuppur. The project is planned to be executed in two phases as follows: Phase1: 1200 MW Phase 2: 1320 MW.

Paddy, Kodo, Kutki and Maize are the crops of the district. Til, Mustard and Groundnut are the main oil seeds produced here. The production of Sunflowers and Soybean has also been commenced. In the central and southern part of the district, paddy is the main crop grown during Kharif season and in the north-west, wheat is the main crop grown during Rabi season.

Weakness

Anuppur is very backward in the field of agriculture. The size of the fields is very small and the tribals are mainly marginal farmers. The yearly yield of the products from the fields is not enough for their home use. Ecosystem of entrepreneurs and labour is less developed in the region. District has a limited industrial base but the existing areas and clusters have limited scope of exporting their products due to consumption of the products domestically or less awareness on exporting procedures. Port connectivity to and from region is relatively costly in comparison with other western parts of the state.

Opportunities

District's economy relies on the forest resources of the district such as timber, as the forests are available in abundance. The district is backward in terms of agriculture as the tribal population still relies on traditional methods. In Anuppur, Coal mining industries employ most of the industrial workers. Power plants are also coming up, which are providing a source for employment. The Mining & Quarrying industry is the highest contributor to the GDDP.

Maikal mountain range is extended from southern part of the district to the eastern part. Minerals like Coal, Bauxite and Fire Stone are significant, of which Coal is found in abundance and production soars as high as 68 lacs MT.

Threats

The nearby industrial area in Chhattisgarh is developing at much faster pace than the region which will affect it in long run. Investors who are looking forward to Madhya Pradesh for investment, their first preference is in the Indore and Bhopal region. For industrial establishment, the requirements of gas, heavy electricity, accessibility to port, availability of natural resources are not available in the region. Skilled manpower usually relocated to NCR due to better opportunity.

6. Kodo Kutki

Kodu and Kutki are the grains of millet species. Their botanical name is *Paspalum Scrobiculatum* and *Panicum Sumatrance*, respectively. The grains of Kodu and Kutki can be eaten like rice. Their grain contains 8.3 and 7.7 grams of protein respectively. In Dindori district, they are cultivated by Baiga and Gond community in most area in the slopes of the hills. Under the Tejaswini program in Mehandwani Development block of the district, organic farming of Kodu-Kutki is being widely used by women self help groups.

SWOT Analysis

Strength-

1. India is the major millet producing country in the world followed by China and Niger. Kodu Kutki are one of the major millet of Madhya Pradesh.
2. Kodu Kutki is rich in Protein, mineral and Carbohydrates.
3. It is good for diabetic person.
4. Madhya Pradesh is major producer of Kodu Kutki
5. Focused state policy framework towards enhancing crop productivity and providing incentives to investors for agricultural infrastructural growth and conducive environment for industry.
6. With the government investing heavily in the market linkage for agricultural produce, Kodu Kutki can be one of the focus crops for the state

Weakness:

1. Lack of Infrastructure for cold Chain like Cold Store, Pack house and Reefer Vans, test laboratories.
2. Farm Aggregation: Majority of the plantations including Gram Plantation in Madhya Pradesh are small land holding. Investment into the aggregator segment for the crop can be huge business opportunity for the private sector.
3. Farmer Education: Significant investment is required in education and relevant support services to give small & marginal farmers the necessary skills and knowledge to increase productivity, improve the quality of the produce and reduce waste

4. Poor Market Linkage & Packaging Techniques for fresh produce.
5. Farmers are Not Aware of the Standard Quality Norms Acceptable in International Markets.
6. Grading & packing units for exports.

Opportunities:

1. Millet is having huge demand across the world due to its health benefit.
2. Growing export markets are UAE, Saudi Arabia, Sri Lanka, Algeria, Iran, USA.
3. Offering huge investment opportunities, Madhya Pradesh can lead the country in terms of Kodu Kutki by products like ready to eat products and cookies
4. Supportive Government backing the investors which can help in taking large scale commercial farming to major Kodu Kutki clusters.
5. Farmer Education: Significant investment is required in education and relevant support services to give small & marginal farmers the necessary skills and knowledge to increase productivity, improve the quality of the produce and reduce waste.

Threats:

1. Kodu Kutki is less famous millet in the world.
2. Lack of promotion and publicity
3. Importing regulation of Agri & Food products are different in different countries.

Action Plan

12. District Export Action Plan

Table: Export Issue-Intervention Matrix for the District

S.No.	Problems	Details	Proposed Intervention	Level of Intervention (Centre, State, District, DGFT RA)	Concerned Ministry & Department
1.	Administrative Support	<p>To promote setting up food processing and industrial units to promote manufacturing through PMEGP and other state level schemes with DIC-Anuppur</p> <p>DIC-Anuppur will facilitate the units in getting important registration in GST process and Import-Export Code</p>	<p>Kodo Kutki is unique product of Anuppur, DIC-Anuppur will take initiative to get the GI tag of the product.</p> <p>If it is required will assist in aggregation of commodities for bulk orders</p>	Centre, State and DGFT RA	<p>Ministry of MSME, GoI and Department of MSME, GoMP</p>
2.	Branding	<p>To create partnership with Indian Institute of packaging and capacity building workshops on branding strategy will be conducted with the units.</p>	<p>An agency may be appointed at district level which can extend support and provide ideas for the designing of the product as per global demand. Agency will also support in the</p>	Centre and State	<p>Ministry of Commerce and Industries, GoI</p> <p>Above mentioned nodal officers of the selected products</p>

			preparation of attractive marketing content and logo etc.		
3.	Awareness	<p>1.Incentive Policies and Documentation</p> <p>2.Customs procedures</p> <p>3.Creation of more FPOs</p>	Online workshops	Centre and State	DGFT RA, Customs Department and Agriculture Department
4.	Quality assurance & Certification	<p>As per the product demand in international and domestic markets, need of quality certification will be analysed</p> <p>Region-wise quality parameters will be assessed and information on these parameters will be provided to the Units</p> <p>All necessary help will be provided to units to get the ISO and other certification with the help of experts.</p>	After achieving the targets of midterm strategy and assessment of quality parameters, it will be ensured to set up a testing facility and provide certification to the units.	State and Centre	Ministry of MSME, GoI and Department of MSME, GoMP
5.	Credit Support	<ul style="list-style-type: none"> Convergence of existing schemes to support financially. Provide term loans to small and medium enterprises to enable them to upgrade export production capability. Assist exporters with pre-shipment and post-shipment credit. ECGC department 	<ul style="list-style-type: none"> Preparing project for future funding demand from state and central Govt. Information Dissemination about existing financial schemes which the MSMEs, exporters and other relevant stakeholders can avail which would facilitate in export 	Centre, State and DGFT RA Centre DGFT RA and ECGC	<p>Ministry of MSME, GoI and Department of MSME, GoMP</p> <p>ECGC Government of India Undertaking</p>

		<p>to provide more support</p> <ul style="list-style-type: none"> • Preparing project for future funding demand from state and central Govt. 	<p>promotion.</p> <ul style="list-style-type: none"> • Support smaller units in establishing their business through financial assistance of different schemes 		
6.	Common Facilitation Centre	<p>1) Common Facilitation is not available in Anuppur. Need assessment of cluster development in the district.</p> <p>2) Information sharing system (including exporters) should be developed in the district.</p>	<p>Common Facility Centre should be created for exports. Need to strengthen the existing cluster.</p> <p>DTIC and DGFT RA can be the nodal department for this initiative.</p>	State and Centre	Ministry of MSME
7.	Logistics	<p>The available local transporters will be the logistics partner with the charges fixed by companies and Govt. officials viz are ware house corporation agriculture produce marketing board etc.</p>	<ul style="list-style-type: none"> • We will partner with logistics and supply chain partners. Currently, MPIDC has an MoU with eBay India and Flipkart Group to market the product international and domestic markets respectively. • Train Service to Mundra Port is required since fuel is very expensive. To initiate train service from ICD Raipur to Mundra Port (CONCOR) • Part load not accepted at ICD Raipur. Weekly loading can be planned at ICD 	Centre	Railway Department (CONCOR)

			Raipur		
8.	Marketing support	<p>Support can be provided by MSME for participation in international trade fairs and exhibition/Customer visit.</p> <p>To analyse the distribution channels associated to the product categories and</p> <p>Identification of new markets for the selected products</p>	<p>Organising more buyer-seller meets will be easiest 2-way communication for marketing of the products.</p> <p>Necessary support will be provided to units to adopt E-commerce platform for the marketing of the product.</p>	State/Centre	Ministry of MSME of Commerce and Industries, GoI
9.	Regulatory	<p>Efforts are being made to ensure that units can get all the clearances on time.</p> <p>DEPC will create Single window system at the district level</p>	<p>Will make aware of all units about rules and regulations related to exports. An assistance will be provided to units to get the required clearances and permissions.</p>	Centre and State	
10.	Training	<p>Export workshops programs will be designed to help export ready companies seize opportunities, navigate the complex landscape of international business, and jump start their export sales</p>	<p>Government can organize the district training camps to generate skilled manpower. Training on:</p> <ul style="list-style-type: none"> • Export tariffs, taxes, and customs procedures; • Commercial standards, regulations and practices; • Distribution channels, business travel, and other market information; • Identification of opportunities and best prospects 	DGFT RA and District Administration	
11.	Supply Chain	<ul style="list-style-type: none"> • The available 	We will partner		

		<p>local transporters will be the logistics partner with the charges fixed by companies and Govt. officials viz are ware house corporation agriculture produce marketing board etc.</p>	<p>with logistics and supply chain partners. Currently, we have an MoU with eBay India and Flipkart Group to market the product international and domestic markets respectively</p>		
--	--	---	---	--	--

Target

13. Target Till 2026

Without target, policy, projection and data analysis would be futile. This report envisages all round development of Exports from the district and targeting doubling of exports till 2026.

13.1. Reasons for doubling the export figures as a target

13.1.1. Government Policies

There has been a paradigm shift in the government policies in relation to exports. Earlier, the focus was sector wise or region wise. However, deepening of the focus and the new vision to prepare districts as export hubs would lead to double the exports and achieving the said target.

Ministry of Commerce through DGFT is engaging with State and Central government agencies to promote the initiative of Districts as Export Hubs. The objective is to convert each District of the country into an Export Hub by identifying products with export potential in the district, addressing bottlenecks for exporting these products, supporting local exporters/manufacturers to scale up manufacturing and find potential buyers outside India with the aim of promoting exports, promoting manufacturing & services industry in the district and generate employment in the District.

13.1.2. Market improvement after corona period

One thing is evident that markets have recovered well after the onslaught observed in the months of February and March of 2020. As markets fell following the global lockdown, equities indices experienced historic drops around the world.

Soon, the flattening of the curve and hopes of vaccine development gave a glimmer of hope of improvement in the overall economic activity at the global level. Gradual upliftment of lockdown restrictions further provided the scope of the revival of business activities.

Based on COVID-19 trajectory and geography specific characteristics, various recovery scenarios can be projected. We are seeing some signs of recovery with global market

indices clawing back close to pre-crisis levels, positive net fund flows, and improved transactional market-making activities in Q2'20.

13.1.3. Price rise in commodities

As the economic activities all over the world are gearing up, the production and demand for such commodities have risen. As the Indian economy started its unlocking phase, it saw a pent-up demand for commodities, driving prices further.

The pandemic has the potential to affect commodity demand and supply for an extended period, the analysis finds.

13.1.4. Negative impact on Chinese products

Unlike the financial crisis which stifled global demand for traded products, the pandemic triggers a 'triple effect' on trade through the following three channels: Disruption of domestic supply, Reduction in global demand and Contagion effect spread through disrupted global value chains (GVCs).

Traditional manufacturers of hosiery, auto parts, hand tools and machine makers see huge demand from USA and Western Countries who want to see alternatives of Chinese supply.

13.2. Whether we can achieve target!

Yes, with the joint efforts of entrepreneurs, exporters, governments and their departments and other bodies and associations, we can achieve the target.

Proposed Schemes

14. Proposed Schemes to achieve Action Plan

This chapter contains proposed schemes for Madhya Pradesh for promotion of exports in the region. These proposed schemes are suggested after analysing export data, export scenario, consultations with all stakeholders and understanding of WTO guidelines.

14.1. Proposed scheme – 1: Export oriented infrastructure development scheme

Objective-

To develop infrastructure in a district which can visibly and directly boost export of that region.

Nature of rewards-

To fund Rs 5 Cr in a year may be spent in each district of India on infrastructure which can visibly and directly boost exports of that district.

The fund shall be spent on following infrastructure projects:

Sr No	Type
1	Road
2	Rail and related facilities
3	Seaport and related facilities
4	Airport and related facilities
5	Pipeline (Water, Gas, Liquid, Chemical)
6	Pollution Control Plants
7	Electricity Production and Distribution
8	Development of industrial Parks
9	Water treatment plants
10	Warehouse, Logistic Park, Selling Centre
11	Inland Container Depot – ICD
12	Processing Units
13	Exhibition Centre
14	Training Facility
15	Testing Labs

16	R&D Centre
17	Small Housing Facilities for Labors
18	Geographical Indication (GI) Registration
19	Marketing Product
20	Common Facility Centre

Who can apply? -

(1) SPV (Special Purpose Vehicle) created by group of exporters having minimum 20 exporters of the region. SPV shall be registered under Section 8 of Company Act as Non-Profit Organization, members of SPV shall have continuous export performance in last three years or

(2) Chamber of Commerce having at least 500 members from Madhya Pradesh before three financial years or

(3) Centre Government Department, PSU, Board, Corporation, Directorate or

(4) State Government Department, PSU, Board, Corporation, Directorate

Title and ownership-

Title and Ownership will be in the hand of the applicant.

Land purchase-

Land may be purchased or taken on long lease for not less than 30 years in the name of the applicant. Expenses related to Land and Lease shall be borne by the applicant.

Fund allocation-

The Government grant will be restricted to 80% of the cost of Project of maximum Rs.5 cr crore. The government grant will be 90% for CFCs for the applicant with more than 50% (a) micro/ village or (b) women owned or (c) SC/ST units. The cost of Project includes cost of building, pre-operative expenses, preliminary expenses, machinery & equipment, miscellaneous fixed assets, support infrastructure such as water supply, electricity and margin money for working capital.

Procedure-

The application shall be made to Regional Office of Directorate General of Foreign Trade, Ministry of Commerce as co-chair District Level Export Promotion Committee (DEPC) of the concerned district. Regional Office of DGFT may scrutinize the applications, verify the claims, identify requirements, study Project Report, and calculate viability of the project and projection thereof. This regional office then recommends DEC about the project.

District Level Export Promotion Committee headed by District Collector has power to decide on which mode, which type, in which place and on which price the above infrastructure can be developed on the recommendation of Regional Office of Directorate General of Foreign Trade, Ministry of Commerce.

DEPC then puts the project before **State Level Export Promotion Committee (SEPC) headed by Chief Secretary**. SEPC may study and scrutinize the project and may approve the project.

Chairman (Deputy Commissioner) and Co-Chair (Regional office of DGFT) shall strictly vigil on expense of funds and relation with exports. The committee shall monitor infrastructure progress development under this scheme on periodical basis. Export shall be boosted with infrastructure improvement under this scheme and direct relationship with exports must be established.

Fund estimate-

There is a requirement of INR 5 Cr/Annum for improvement of export infrastructure in the district.

Benefits-

It slowly, but in solid way, can create export infrastructure in all parts of Madhya Pradesh. Fund is small but it impacts.

14.2. Proposed scheme – 2: Madhya Pradesh Trade Policy

Objective-

To promote export ecosystem in the State, Government has introduced a comprehensive Trade Policy with the following objectives:

- (i) To quadruple the export from the state within next five years;
- (ii) To double the number of exporters from the state within next five years;
- (iii) To develop and maintain access to strategic foreign markets for goods and services from Madhya Pradesh and manage key trading relationships while diversifying new and existing opportunities.
- (iv) To achieve export growth in leading export related district, with significant growth in exports of identified products/services from each district.
- (v) To achieve synergy by integrating flagship programmes and activities of the line departments of Government of Madhya Pradesh (GoMP) & Government of India (GoI).

Nature of rewards:

MP Export Facilitation Fund (MPEFF)

International Market Development Assistance (IMDA)

MP E-Commerce Subsidy (E-COMS)

14.3. Proposed scheme –3: Madhya Pradesh Trade Promotion Council

The Madhya Pradesh Trade Promotion Council will work for the overall development of all manufacturing, service and business sectors right from entrepreneurship development, export infrastructure development and export ecosystem development in the state and outside. The MPTPC shall coordinate with all the stakeholders in the value chain and whole process of exports to establish and enhance contacts within and outside India for better business growth.

Governance Structure

The Council will comprise of a Governing Body, Executive Committee, Panel Committees which would comprise of Registered Members.

The functionaries of the Governing Body will work towards strategizing and executing the agenda of the Council.

A. Governing Body:

- I. Chairman – Honourable Chief Minister, Government of Madhya Pradesh
- II. Members of Governing Body: As mentioned in the Order No.: F 19-20/2022/1/4 dated 03/03/2022
- III. Elected Conveners of below mentioned panel committees:
 - A) Agriculture & Food Processing
 - B) Pharmaceutical
 - C) Textile & Garments
 - D) Automobile & Engineering
 - E) IT and other sector
- IV. Member Secretary: Principal Secretary, Department of Industrial Policy and Investment Promotion, Government of Madhya Pradesh

B. Executive Committee:

- I. Chairman – Chief Secretary, Government of Madhya Pradesh
- II. Members of Executive Committee: As mentioned in the Order No.: F19-20/2022/1/4 dated 24/03/2022
- III. Member Secretary: State Export Commissioner (Managing Director, M.P. Industrial Development Corporation Limited), Government of Madhya Pradesh
- IV. Establishment of Directorate of Trade

Sectoral Panel Committees: The Panel Committees will be the forum for member exporters to provide expert views on specific sectors to the Governing Body for consideration and prioritization. The Panel Committee will comprise of a Convener (Representative of the committee in Governing Board) and 6 sectoral industrial representatives in the respective committees.

14.4. Proposed scheme –5: Export Promotion and State Duties & Taxes Remission

Objective-

Objective of the scheme is to remit taxes and duties paid to the state which are not remitted in any other scheme i.e., stamp duty.

Nature of rewards-

Exporters shall have fulfilled ten times of exports against stamp duty paid at the time of sale deed registration or lease deed registration within six years of stamp duty paid date. Monetary benefits shall be directly transferred to the account of the exporters in cash.

Procedure-

The applicant shall submit forms with copy of Shipping Bills, electronic Bank Realization Certificates (eBRCs) and Export Invoices with GST details to Regional Office of Directorate General of Foreign Trade, Ministry of Commerce as the member of District and State Level Export Promotion Committee. Exporter name mentioned in Shipping Bill is entitled for application. The office may scrutinize the applications, verify the claims, identify requirements, study the product and calculate viability of the product and projection thereof. The regional office then recommends Directorate of Industries, Government of Madhya Pradesh whether the application is fit for acceptance. Directorate would then accept the request and disburse the fund.

Conclusion

15. Salient Features and Conclusion

This is the first ever mammoth exercises done by Government of Madhya Pradesh with Office of the Joint Director General of Foreign Trade Bhopal where all Exporters, Entrepreneurs, Chambers of Commerce, Export Promotion Councils come together for export promotion.

15.1. Vision of Hon'ble Prime Minister

In order to implement the vision of Shri Narendra Modi, the Prime Minister of India, to convert each district into an export hub, the Finance Minister in her Budget 2020-21 speech, said that each district should develop as an export hub. She further said that efforts of the Centre and State Governments are being synergized and institutional mechanisms are being created.

The Ministry of Commerce and Industry through Directorate General of Foreign Trade (DGFT) has been engaging with States/ UTs to initiate preparation and implementation of a District Export Plan (DEP) specific to each district in every State/ UT through an institutional structure at the district level. The institutional structure set up at the district level for implementation of the District Export Plan will be headed by the Chief/ District Development Officer with other relevant District Level Officers as members.

15.2. Changing priority of central government

Even before the pandemic, the economy was already slowing down, with deficiencies evident in both consumption and investment demand. Unlike some other countries, consumption and investment have been the main drivers of growth in India in recent times. Though export contributed to earlier versions of India's growth story, in the immediate aftermath of the pandemic, its efficacy to boost growth needs to be closely observed.

Despite repeated attempts to bolster manufacturing, the sector failed to grow, leaving services to step up. Eventually, lack of demand hit all segments irrespective of their economic nature. The pandemic, as an external shock, has finally contracted the economy.

It is a widely held view that every crisis also presents an opportunity. Given the prevalence of inequality in Indian economy, the implementation of a fiscal stimulus across sectors will not only lift the economy out of the woods but also address some of the existing distortions in income and wealth distribution.

Sector and area wise approaches and incentivization was the earlier focus of the government and the focus has been shifted to the grass root level to the districts in the states to promote them as export drivers.

15.3. Changing priority of the state government

No priority on exports was given in the previous era and export as a driver of growth of the economy has been highlighted and utilized at present.

DEPC and SEPC are example of co-operative federalism.

15.4. Target: 5 trillion-dollar economy

The government is sticking to the target of becoming a USD 5 trillion economy by 2024-25 and emphasis on infrastructure sector and other initiatives taken in Budget 2021-22 are aimed at achieving the goal.

Presently, India is the fifth largest economy in the world with GDP of around US\$ 3 trillion in 2019-20. If the US\$ 5 trillion target is translated into reality, the country will leave behind Germany to become world's fourth largest economy in 2024-25, only behind US, China and Japan.

15.5. Future: every district will be an export hub

Department of Industries & Commerce, through DGFT is engaging with State and Central government agencies to promote the initiative of Districts as Export Hubs. The objective is to convert each District of the country into an Export Hub by identifying products with export potential in the District, addressing bottlenecks for exporting these products, supporting local exporters/manufacturers to scale up manufacturing and finding potential buyers outside India with the aim of promoting exports, manufacturing & services industry in the district and generate employment in the district.
